

WASTE TREATMENT PLANT PROJECT REQUEST FOR INTEREST

HLW PORTABLE TOILET AND SEWAGE PUMPING SERVICES

Requisition Number: 24590-NP-FSR-MQBR-00016.
Submit Interest By: May 7, 2025
Quality Level: NP (Non-Permanent)
Award Type: Fixed Unit Rate

ESTIMATED SCHEDULE Through January 2026 with Option Years.

Issue Request for Proposal: Forecasted June 2025
Award and Notice to Proceed: Forecasted August 2025

PROJECT DESCRIPTION AND LOCATION

The Hanford Tank Waste Treatment and Immobilization Plant (WTP) is a complex of radioactive waste treatment processing facilities designed and constructed by Bechtel National, Inc. for the Department of Energy (DOE). The facility will process the Hanford Site tank waste and convert the waste into a stable glass form.

The Project site is located in the 200 East Area of the Hanford Reservation near Richland, Washington, along the Columbia River. The site elevation varies from 662 to 684 feet above mean sea level. Ambient temperature range is -23 degrees F minimum to 113 degrees F maximum, with relative humidity of 5% minimum to 100% maximum. The project design life is 40 years.

SCOPE OF WORK

CONTRACTOR will request a quantity of portable toilets at various times to be placed at the HLW Construction Site. SUBCONTRACTOR shall maintain a log of all new units, the date of original purchase, date the unit was delivered and put into service.

SUBCONTRACTOR shall provide and service portable toilet units at least twice weekly. CONTRACTOR will coordinate with the SUBCONTRACTOR to allow the units to be serviced twice a week. Portable toilet units shall include a toilet stool, 2 rolls of toilet paper, disposable toilet seat covers, a urinal, waterless anti-bacterial hand cleaner, and paper towels. Servicing of portable toilet units shall include removal of accumulated waste, complete cleaning and sanitizing the unit, and replenishing consumable supplies to include the following

- Toilet paper
- Disposable seat covers
- Hand sanitizer dispenser
- Cleaning and sanitizing of the unit interior

SUBCONTRACTOR must be available on call out for pumping services and will be contacted either by telephone or e-mail.

SUBCONTRACTOR shall remove portable toilet units deemed by the CONTRACTOR to be in unsatisfactory condition. These units will be staged in a common area by the CONTRACTOR. If required, SUBCONTRACTOR shall supply clean replacement units on a call out basis and unloaded in a common area as directed by the CONTRACTOR.

SUBCONTRACTOR shall provide waste pumping and removal services vehicles for CONTRACTOR facilities outfitted with sewage holding tanks.

SUBCONTRACTOR shall remove waste material from the permanent toilet facilities holding tanks located at site (Presently 4 units on site).

SUBCONTRACTOR shall provide off site repair services for previously supplied units that incur damage above and beyond normal wear and tear. SUBCONTRACTOR shall provide a written estimate via e-mail prior to performing

the repairs. Reimbursement of repair or replacement costs, if required, shall be approved by the CONTRACTOR prior to the unit repairs being performed or replacement.

QUALITY ASSURANCE (QA) REQUIREMENTS

Programmatic Quality Assurance (QA) requirements for subcontracts or purchase orders performed in the WTP Jobsite will be:

<input checked="" type="checkbox"/>	Non-Permanent or Temporary Work - Generally no QA program required
<input type="checkbox"/>	Commercial Quality - Based on DOE Order 414.1C
<input type="checkbox"/>	Nuclear Level Quality - Based on ASME NQA-1 2000

Bechtel may require, as an element of bidder pre-qualification, submission of a representative sample QA Program or Table of Contents copy.

CODES AND STANDARDS

SUBCONTRACTOR shall process and / or dispose of triolein unit sewage, related waste products and chemicals used in support of this work in accordance with local, state, and federal regulations. This shall include but not be limited to requirements of Benton County / Washington department of health, Benton County, / Washington clean air authority.

BIDDER REGISTRATION AND PRE-QUALIFICATION

The BNI Acquisition Services Subcontracts/Purchasing group is responsible for collection, evaluation, and internal publication of potential bidders' information for the purpose of pre-qualifying them to bid on any particular subcontract or purchase order.

As part of this process, BNI requires all potential offerors to register at the Supplier and Contractor Portal at: <https://www.Bechtel.com/supplier/>

If your company has registered previously, then only supplemental information should be sent to the Bechtel National, Inc. representative noted below.

Information to be provided by potential bidders must include:

- Dun and Bradstreet Number
- Company Name
- Company Address
- Contact Phone Number
- Contact Person
- Email Address
- Safety Data and Information
- Applicable Work Experience and Projects
- Size of Business (Small, Large)
