

WASTE TREATMENT PLANT PROJECT REQUEST FOR INTEREST

High Level Waste (HLW) Facility Standing Seam Roofing – Installation Only

Requisition Number: TBD
Submit Interest By: Tuesday, August 25th, by 12pm PST
Quality Level: Commercial Grade (CM) Quality
Award Type: Lump Sum / Firm Fixed Unit Rate

ESTIMATED SCHEDULE

Issue Request for Proposal: Forecasted Tuesday, September 1st, 2026
Award and Notice to Proceed: Forecasted Monday, December 14th, 2026

PROJECT DESCRIPTION AND LOCATION

The Hanford Tank Waste Treatment and Immobilization Plant (WTP) is a complex of radioactive waste treatment processing facilities designed and constructed by Bechtel National, Inc. for the Department of Energy (DOE). The Project site is located in the 200 East Area of the Hanford Reservation near Richland, Washington, along the Columbia River.

Work is to be completed at the WTP Construction Site, in the HLW Building. SUBCONTRACTOR shall comply with the WTP Project Site Security Program requirements. Any requested access must be coordinated through CONTRACTOR.

SCOPE OF WORK

SUBCONTRACTOR's scope of work shall include, but shall not be limited to, labor only to install CONTRACTOR designed and supplied metal roofing system.

SUBCONTRACTOR shall provide a qualified workforce of craft professionals, quality workmanship, and oversight. General roofing design is Standing Seam Metal Roof of 82,000 square feet and SUBCONTRACTOR's work activities will be composed of the following:

1. Installation of Metal Roof Panel system including thermal insulation
2. Bending, welding, and installation of stainless-steel scuppers and gutter trough
3. Installation of vapor barrier and waterproofing membranes
4. Installation of joint sealants
5. Inspection of roofing systems

Attached is a 4D model depicting where the work will be performed.

QUALITY ASSURANCE (QA) REQUIREMENTS

Programmatic Quality Assurance (QA) requirements for subcontracts or purchase orders performed in the WTP Jobsite will be:

☐	Non-Permanent or Temporary Work - Generally no QA program required
☒	Commercial Quality - Based on DOE Order 414.1C
☐	Nuclear Level Quality - Based on ASME NQA-1 2000

Bechtel may require, as an element of Bidder Pre-qualification, submission of a representative sample QA Program or Table of Contents copy.

STANDARDS

- Sheet Metal and Air Conditioning Contractors' National Association: SMACNA Architectural Sheet Metal Manual.

Other Requirements

- Contractors' Weld Program
- BEMO's Standing Seam Roof Guidance

BIDDER REGISTRATION AND PRE-QUALIFICATION

The BNI Acquisition Services Subcontracts/Purchasing group is responsible for collection, evaluation, and internal publication of potential bidders' information for the purpose of pre-qualifying them to bid on any particular subcontract or purchase order.

As part of this process, BNI requires all potential offerors to register at the Supplier and Contractor Portal at: <https://www.Bechtel.com/supplier/>

If your company has registered previously, then only supplemental information should be sent to the Bechtel National, Inc. representative noted below.

Information to be provided by potential bidders must include:

- Dun and Bradstreet Number
- Company Name
- Company Address
- Contact Phone Number
- Contact Person
- Email Address
- Safety Data and Information
- Applicable Work Experience and Projects
- Size of Business (Small, Large)
